Secure, keyless check-in and check-out

## Smart Day Lockers

Ricoh Smart Day Lockers bring a unique solution to a common workplace problem. With the introduction of agile working and hot-desking, your workforce is increasingly mobile. Yet employees still require personal, and in some cases, team locker space. Managing this day-to-day, whilst auditing usage, dealing with locker hogging and lost keys all adds to the workload of the facilities team and frustrates the workforce.

Smart Day Lockers offer both secure temporary and permanent storage, providing your staff with a safe space for their personal belongings at the workplace, whilst at the same time providing greater control of your property portfolio.

With Smart Day Lockers, employees are able to reserve a locker in advance via their mobile device, or on-demand via a touch screen console.

## Benefits & Features

Ricoh Smart Lockers enable multiple storage locations to be managed from a single online portal. With a keyless entry system using only a keypad or ID pass/card, the lockers track who is using what, and for how long. You see at a glance how much of your real estate is being used, and by whom, ensuring that all lockers are fully and correctly utilized.

### Key benefits:

- Oversight of your locker real estate
- Allocation of individual lockers
- More efficient utilization of your space
- Modular, extendable and customizable
- Keyless access
- Online booking facility
- Increased accountability and reduced hoarding
- 24/7 access (or whenever building is open)

## Smart Lockers for Personal Storage Process

## The technology behind Smart Lockers

Smart Lockers provide unique locking technology and facilities management, offering greater security for your employees and ease of management for the business. Management of units is centralized at a Locker Bank, which can only be accessed via secure RFID swipe card authentication or a touchscreen interface. This control interfaces with key-free access, touch screen and RF card readers, offering full accountability and security for all users.

### Built to suit your needs

Whether you're a large enterprise, a manufacturing business, a university, hospital or school, our range of locker configurations

will help you optimize your property holdings and increase accountability. Our lockers come in a range of styles to suit your needs, whether it's stand-alone or networked and integrated.

### Modular, extendable and customizable

The modular column design of the lockers enables them to flex according to your different layout requirements. The size of the lockers are also customizable, to accommodate different staff needs. With a variety of modern, classic and wooden finishes, expect a solution that seamlessly integrates with your existing workplace.

# Ricoh empowers digital workplaces by enabling individuals to work smarter.

Ricoh empowers digital workplaces by enabling individuals to work smarter.

After 85 years, we've learned a thing or two about changing with the times – especially when it comes to workplace technology. But experience has also taught us that technology needs to put people first.

From the smallest shops to the largest organizations and everything in between, today's workplace needs experts, which is why we're here. Our people help yours do their jobs better, faster and more securely. We connect our customers with the right technology and back it with the expertise to support your success.

Today's work requires better processes, better collaboration and better results. Let us help you redefine work and **change. For better.**
