

## Knowledge is the best defense

Ricoh Cybersecurity Awareness Training will make your employees your strongest first line of defense against cyberattacks.

### WHAT THIS COURSE COVERS:

- 1. Common cybersecurity concerns:** Learn about the types of threats that exist and understand their effects on business and data.
- 2. Threat landscape:** Find out where attacks like ransomware and zero-day vulnerabilities are originating from and why they are so difficult to stop.
- 3. Best practices for protection:** Learn how to avoid scams, recognize threats, and take the necessary action to protect sensitive data and information.
- 4. Enhanced defenses:** Find out how other IT departments are fighting back and what the government is doing to combat cybercrime.

#### ACCESS TO ONLINE PORTAL

Make cybersecurity awareness training easily part of every new employee onboarding experience with pre-recorded videos and content.

#### COMPREHENSIVE CONSULTATION

Experienced cybersecurity specialists will review your practices and tailor the course to areas that are of concern for your business.

#### INTERNAL COMMUNICATIONS MATERIALS

For a 360° approach to cybersecurity awareness within your organization, you'll have access to additional communications materials such as posters and weekly security bulletins.
